

# Unlock Core Data. Innovate Rapidly. Accelerate Growth.

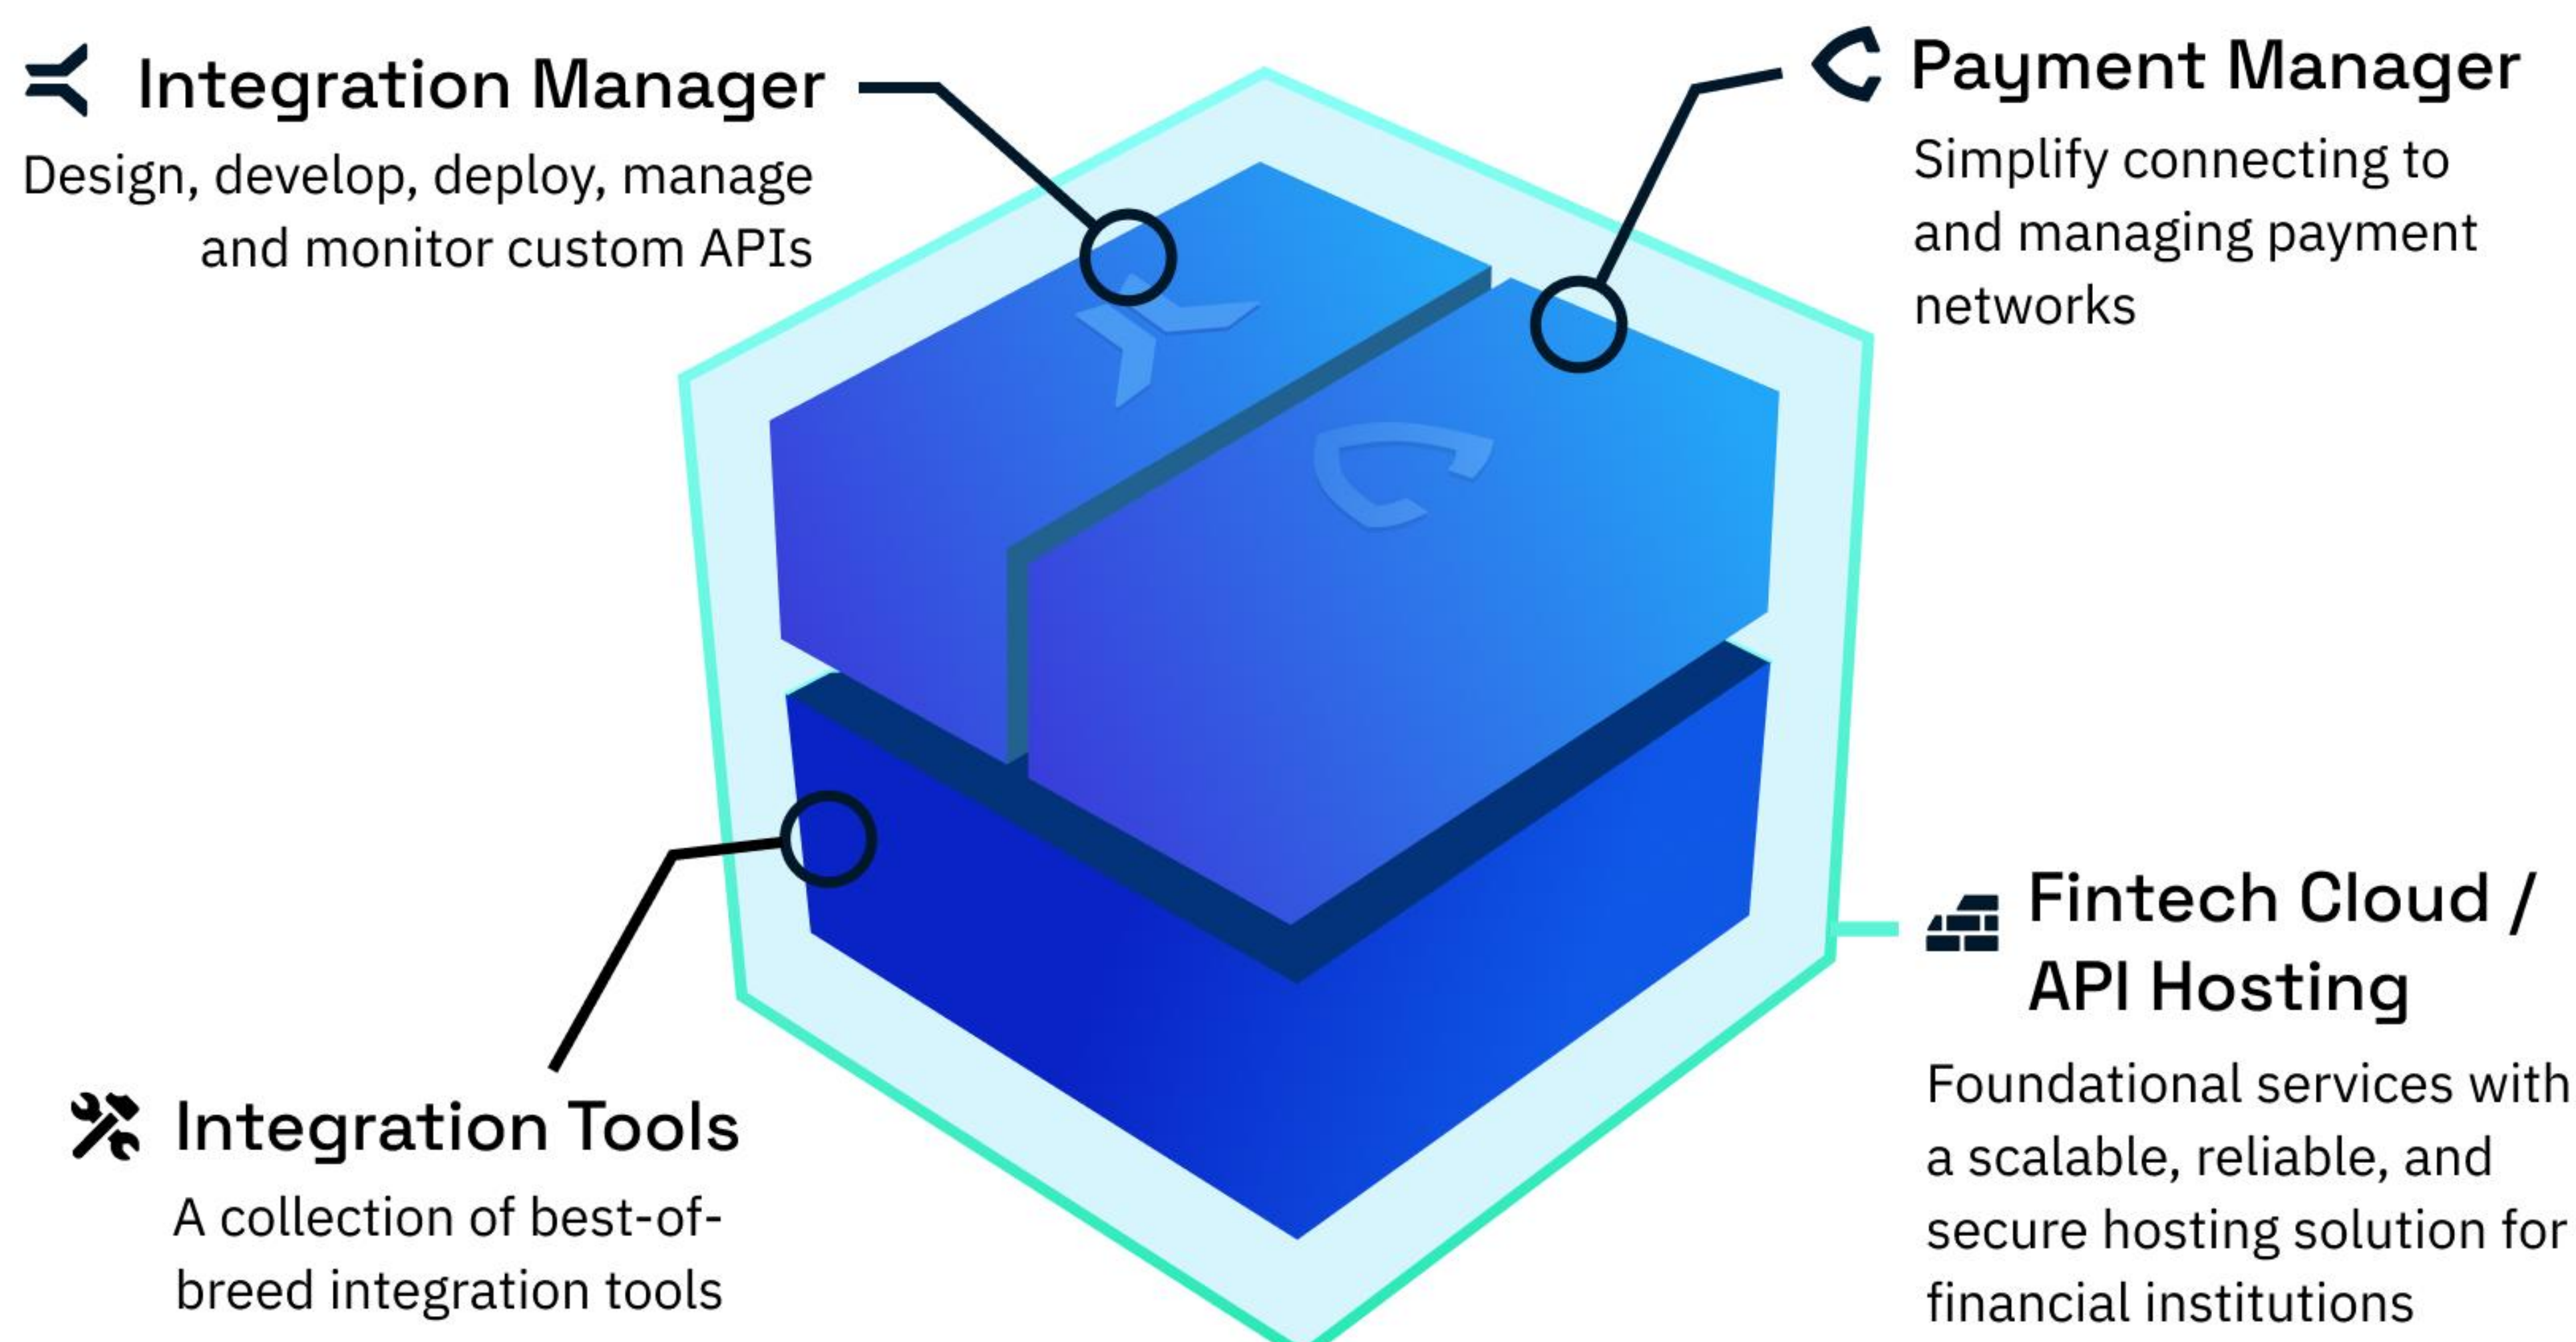

PortX is removing the barriers that impede innovation in financial services. We develop infrastructure that provides open access to data, simplified application connectivity, and accelerated adoption of new technologies and networks.

Our team delivers business outcomes almost exclusively for banks, credit unions, and fintechs via PortX—our Integration-Platform-as-a-Service (iPaaS). Combining our tools and expertise, we unlock access to core data, enable rapid delivery of innovative products, facilitate optimal customer experiences, and help FIs build a 360-degree view of their customers

The Integration-Platform-as-a-Service (iPaaS) built specifically for financial services.

## Company Profile

Founded: 2014 (formerly ModusBox)

Headquarters: Seattle, WA

## Product Solutions

- Banking Core Integration
- Fintech Integration
- Real-time Payments Solutions
- Embedded Finance Solutions
- Enterprise Integration

## Customer Reference

*“In our integration-centric approach, the core actually delivers more value because we can leverage more of what it does best rather than burdening it with the complexity that comes with being central to other important systems.”*

*—Kevin Guenthner,  
CIO at Stockman Bank*

## Reclaim Core Data

Begin with cost-effective, reliable, and reusable API connectivity that abstracts the banking core from other systems to provide your FI full control of the customer data you own.

## Delight Customers and Staff

Create unparalleled products by meticulously selecting from top-tier providers that include banking cores, payment networks, financial applications, and fintech solutions.

## Unleash Rapid Innovation

Control over your core integration and customer data unleashes rapid project creation, accelerates speed-to-market, and ultimately drives your digital-first organization.

## Discover New Opportunities

A comprehensive integration strategy culminates in a 360-degree view of your customers, the versatility to monetize your data, and the discernment to grow your business efficiently.
